

Workplace Ergonomics Services

*'Injury protection in
the workplace'*

your trusted partners in workforce health

OUR PROMISE - GUIDING YOU THROUGH THE OBSTACLES

Musculoskeletal injuries (90%*) are the leading issue in Australian Workers' Compensation claims. Misuse of equipment and incorrect manual handling have contributed to the back and neck injuries workers have sustained. Preventing workplace injuries is paramount in maintaining a safe work environment.

Employers value Workplace Ergonomics Services such as key tools in identifying and preventing harm or injuries in the workplace. Champion safe work-spaces and practices for your workers through workplace ergonomics services.

THAT IS WHERE WORK OPTIONS COMES IN!

Work Options' is passionate about guiding businesses through workplace safety. Ensuring your business is ergonomically friendly to prevent injuries, our ergonomics experts will provide you with preventative and cost-effective strategies including utilising existing equipment.

WHAT SETS US APART

Reputation for Integrity, Quality & Service

Workforce Health Provider for 20+ years

Professional and Experienced Workplace Ergonomics Experts, Physiotherapists and Occupational Therapists

WORKPLACE ERGONOMICS SERVICES

Our ergonomic experts are passionate and highly skilled to help you get the best result for your business and budget.

Conducted face-to-face, onsite or virtual our workplace ergonomic assessment services can be conducted in corporate and industrial settings, including vehicles.

Workplace ergonomics services can be tailored to your business in line with the Australian Standards.

Individual Assessment

Our one-on-one assessment reviews the worker's set-up in the business or home. The one-hour assessment (via onsite or virtual) is followed by a solutions report.

Small-Group Assessments

For small teams limited by time, a fifteen minute ergonomic assessment will be ideal to pinpoint any adjustments or recommendations needed. This assessment is also ideal for workers returning back into the workplace or working in a new office fit-out.

Floor Sweeps

Quick fine-tune assessments target main areas of concern. Our ergonomic experts will assess up to 10 workstations within the hour while providing tips and advice for the workspace.

Training Sessions

Held online or in-person our training sessions provide businesses with an overall understanding of workplace ergonomics with tips, advice, equipment position, and exercise demonstrations.

Task Analysis

Our team will review the manual handling tasks and provide preventative strategies for the role.

CAN YOUR BUSINESS AFFORD THIS?
